WORK EXPERIENCES

Mathematics & Economics Tutor | Tayberry Tuition & Consultancy (West Yorkshire, UK) January 2026 – Present

- Develop tailored mathematics and economics learning plans by assessing the strengths, weaknesses, and academic goals of 20+ students, helping students improve academic performance through targeted improvement strategies
- Tracked progress through ongoing assessments and feedback sessions, adapting instructional strategies to address knowledge gaps and support continuous improvement, strengthening adaptability and problem-solving skills

Mathematics & Coding Assistant | University of Toronto Math Outreach (Toronto, ON) August 2025 – May 2026

- Managed classroom logistics and tracked 30+ students participation, assisting in reporting progress and resolving technical issues to maintain operational efficiency and help lessons run smoothly and effectively
- Guided and monitored students during lessons and transitions, handling unexpected situations, fostering a positive, organized, and safe learning environment while enhancing participation and engagement

Summer Camp Operations Counsellor | UofT International Program (Toronto, ON) June 2025 - August 2025

- Supervised cohort of 1,500+ international students by collaborating with counsellors, coordinators, and managers to coordinate 20+ weekly events, resulting in successful program execution and outstanding student experience
- Planned and led workshops to 25 finance professionals from abroad by delivering presentations, facilitating discussions, and guiding interactive activities to enhance cross-cultural understanding and community building

LEADERSHIP EXPERIENCES

Volunteer Tax Preparer | Woodsworth Cooperative Tax Clinic (Toronto, ON)

January 2026 – April 2026

- Prepared and filed student income tax returns using CRA-approved software, validating financial data, resolving reporting discrepancies, and ensuring compliance with federal tax regulations
- Organized and reviewed client documentation using Excel tracking tools, maintained structured digital records, and ensured accurate data management to improve workflow efficiency and support consistent service delivery

Senior Lead Consultant | Consult for Impact (Toronto, ON)

December 2025 – April 2026

- Led a consulting team in developing a go-to-market strategy for a water-focused STEM startup by benchmarking 20+ competitors, conducting market and SWOT analyses, and identifying strategic growth opportunities
- Synthesized qualitative and quantitative insights from market research, customer segmentation, and stakeholder interviews into recommendations that informed the client's strategic planning and business case development

Marketing Director | 180 Degrees Consulting (Toronto, ON)

June 2025 – May 2026

- Developed and executed a data-driven social media strategy using SEO optimization and audience analytics, increasing views by 140% and engagement by 95% to support event promotion and community outreach
- Led and mentored a team of marketing associates to execute targeted event marketing campaigns, doubling participant attendance through data-informed promotional strategies

AWARDS AND ACHIEVEMENTS

2nd Winner in Expanding Horizon Case Competition | Rotman Commerce International Business

- Developed a sustainability strategy for a digital climate storytelling platform by analyzing organizational challenges, conducting in-depth analysis, and proposing strategic solutions aligned with SDGs that enhanced community engagement, built long-term partnerships, and expanded audience reach

3rd Winner in Consulting Olympics Case Competition | Global Research & Consulting Group

- Developed a partnership and expansion strategy for WaterAid Canada to address funding constraints and strengthen international influence by designing a donation-per-bottle funding model that forecasted ~\$40M in potential contributions, placing 3rd out of 98 participants

Semi-finalist in National Case Competition | Management Consulting Case Competition

- Developed a strategic ESG capital allocation plan for Saudi Aramco, evaluating emissions abatement, ESG reporting, and energy transition initiatives to optimize a \$1B investment while maintaining financial discipline
